# EDUCATIONAL USE ONLY

## NOT A CLINICAL REFERENCE

This study aid is a learning and exam-review tool for nursing and pharmacy students. It must not be used to make patient-care decisions, including dosing, administration, or monitoring.

## ALWAYS VERIFY

Drug information, boxed (black box) warnings, and high-alert designations change over time. Before applying anything in practice, check the current FDA-approved labeling, your facility's policies, and an up-to-date drug reference. Normal lab ranges vary between laboratories; use the ranges your program or facility provides.

## RECOMMENDED REFERENCES FOR VERIFICATION

- FDA drug labels: DailyMed ([dailymed.nlm.nih.gov](https://dailymed.nlm.nih.gov))
- ISMP List of High-Alert Medications ([ismp.org](https://www.ismp.org))
- A current nursing drug handbook or your program's required drug reference
- Your course textbook and instructor guidance

## ACCURACY

Content was reviewed for accuracy at the time of publication, but errors or omissions are possible. If you spot one, please let us know so it can be corrected in the next update.

## TERMS OF USE

For personal study use by the purchaser only. You may print as many copies as you need for your own studying. Do not resell, redistribute, upload, or share this file.
